WHOLESALE PRICE LIST : 1951 SEEDS of SO. CALIFORNIA.

Collector-Distributor: Mrs. E. W. Cisler, 1777 Morena Blvd., San Diego 10.

Odi 1

NOTE: Where price and quantity are not shown, they are subject to crop and collection. Please state amount of each desired as early as possible. This applies particularly to all Quercus spp. and other late maturing items.

Some natives made no seed this year, while some have had none for several. Advance orders also will make some shortages here and there. Certain distant items remain difficult and expensive to collect from the wild. Every effort is made to furnish only high quality, viable seeds which are true to name. See retail list for descriptions and other kinds. A few non-native items are available.

TERMS: Cash with order, except where credit is established; others within ten days. Parcel Post is extra. Trade packets are 50%.
